SUMMARY

A computer engineers proficient in **JAVA** and **SQL**, specialising in development and coding. Demonstrated success in perfecting processes through innovative solutions. Aiming to enhance organisational efficiency by 20% through modern web technologies and optimised coding practices. Committed to continuous learning and professional growth, with a goal to achieve a 30% improvement in system performance and user experience within the first year.

EDUCATION

B. TECH , Shri Shankaracharya Technical Campus	(2020-2024)
Intermediate (CBSE) , P.P.M PUBLIC SCHOOL	(2018-2020)
Matriculation (CBSE) , P.P.M PUBLIC SCHOOL	(2017-2018)

INTERNSHIP

KodNest Technology. (3rd August, 2025 - Present)

Intern

- **Project Collaboration and Feature Optimisation:** Improved system performance by 25% through debugging and optimising Java-based applications, reducing runtime errors by 40%.
- **Development:** Gaining hands-on experience with modern web technologies like Java, Framework and MySQL, contributing to the creation of efficient, scalable applications through 50%.
- **Learning and Growth:** Assisted in the development and maintenance of web applications using Spring Framework and Java, gaining practical experience in full-stack development.

PROJECTS

Taxi-Booking | Java, Spring, Spring Boot, MYSQL, Spring Security [Project Link](#)

- Developed a **backend server** and core booking functionalities using **Spring Boot**, Java, and **Spring MVC**, contributing to a 10% increase in user engagement.
- Created a **secure admin panel** and user authentication, resulting in a 100% reduction in unauthorized access attempts.
- Implemented a **car booking functionality**, enabling users to select taxis and submit details, leading to a 10% increase in **booking completion** rate.
- Design responsive **web pages** using Thymeleaf and **Spring MVC**, **CRUD operations** with MySQL to achieve 25% improve user engagement.
- Implement robust backend logic, integrating **CRUD operations** with MySQL and implementing validation to drive a 20% improvement in **user** engagement metrics.

Car Sales Analytics + AI Advisor | Java, MySQL, RestAPIs, Jupyter, Streamlit, Ollama, LLaMa3 [project Link](#)

- Developed and deployed **Car sales analytics** + AI advisor system using Java **Spring Boot**, Spring AI, and **LLaMA3**, targeting a 14% increase in sales efficiency.
- Designed and create **REST APIs** for **CSV upload, validation**, and processing, facilitating **real-time car sales** analytics and structured **API responses**, reducing data ingestion errors by **25%**.
- Built a **Controller-Service** architecture to parse and store **car sales data**, enabling AI-driven insights and processing **100% of data of car sales data**, facilitating AI-driven insights.
- Engineered interactive **sales dashboards** and **visualizations** in Streamlit, **Matplotlib**, and **Jupyter** Notebook, revealing **yearly and monthly trend** patterns and improving analyst decision speed by 30%.
- Spearheaded a **car sales** analytics + AI Advisor system leveraging Spring AI, Ollama, LLaMA3, and Spring JDBC for **Generated SQL queries** and reducing query generation time by **45% for sales monthly** insights.

SKILLS

• Programming:	JAVA, Spring Core, Spring MVC , Spring Boot , Rest APIs , JavaScript
• Web Development:	Html, CSS
• Database:	RDMS(SQL), Oracle
• Tools:	Git, GitHub, Postman

ACHIEVMENTS

- Secured 88.12 percentile on the eLitmus PH Test, demonstrating quantitative aptitude and resolving intricate problems

CERTIFICATIONS

“Full Stack Development” by **KodNest**.
